Coalitions for Action, SDG's Experts Circle (incubator), Creative Alliance (citizens' campaigns), Training courses

## *Our international meetings.*

**The General Assembly of Corporate Citizens**  
Europe, Arab world, Africa, US.

# The Knowledge Committee

The Knowledge Committee is a community of key researchers, academic actors, and experts of Thinkers & Doers' network, that takes part to the initiatives and actions of the think tank, promotes a global social and ecological transition, and helps a deep transformation of organizations.

For 2020, the Committee has 3 main objectives: to write the common narrative of an inclusive society ; to design tools and levers to speed up the process of cultural transformation of organizations and societies ; to conceive an alphabet book with the keywords of the organizations' transformation, along with 100 researchers, thinkers, doers, and observers of the international movement of corporate citizens.

The Knowledge Committee also contributes to identify projects and causes that Thinkers & Doers could support, thanks to its 'Coalitions for Action'.
